Government & Nonprofit Professionals Need Accurate U.S. Household & Business Information

Government agencies and NGOs need high-quality information for strategic planning, critical analysis, and compliance activities. Thousands of agencies, national organizations, and international organizations trust the DatabaseUSA® residential and business databases to help them make critical decisions every day.

We at DatabaseUSA® are in the business of compiling detailed information on all businesses in the United States. We employ over 100 agents to verify the accuracy of our data, thus ensuring that it is the most up to date information for our customers. We make this data available in a monthly release. We also maintain a database with complete information on over 220 million residents. Each of these locations are tied to their corresponding GIS information (i.e. Latitude / Longitude) providing for exact business and residential data mapping. With the locations we have also appended additional detailed information to provide for a more complete data representation. Some of the detailed information and functionality includes:

- Comprehensive information on US private and public companies and organizations (contact information, company size, revenue, employees, growth, and geography).
- Detailed information on executives including addresses, phones, and emails.
- Search criteria flexibility (search by industry, SIC/NAICS, geography, name, or via map).
- Residence information (estimated household income, home market value, age, length at residence).
- Ability to download records.
- Graphs and charts to visualize data.
- Full GIS information (latitude and longitude) on every record.

Both files are updated monthly. The data is useful for all types of GIS usage, including:

- Roof Top GIS Locations
- Traffic Studies and Regional Growth Studies
- Emergency Planning and Notifications
- 911 Lookups
- Proposal / Grant Writing
- City / Regional Planning or comparisons with other regions
- Economic Development Information
- Population and Residential Data

We make this information available as a download file, and/or via our web-based research and lookup tool, AtoZdatabases®. We also have an API where you can interface your websites directly into our database and constantly pull the most current data elements for your application.

How We Compile Our Data

DatabaseUSA® is a leading compiler of comprehensive information on businesses and consumers in the United States. These databases are frequently used for a multitude of projects including Direct Marketing, Skip Tracing, ID Validation, Local Search, Business Intelligence and Analytics services. These databases are widely regarded as being of the highest quality available with exceptional coverage. DatabaseUSA® has an extensive list of databases that it compiles and all of these can be made available through our API, file and web services platforms. Here is a brief list of some of the types of databases that we compile:

- **15 Million Businesses**
- **20 Million Business Executives**
- **20,000 Weekly New Businesses**
- **15 Million Executive Emails**

Data Quality is a top priority for our compilation team. DatabaseUSA® uses a proprietary compilation method that allows us to “Triple Verify” a business listing. In addition DatabaseUSA® makes over 2 million phone calls per month to verify, update, and enhance each business entity. DatabaseUSA® does web compilation on the company site as well as other directory sites.

To further enhance the quality of our business data, DatabaseUSA® compiles information from thousands of sources. This allows us to have comprehensive coverage not only of the businesses themselves but also of the data fields associated with each business record. Here is a sample of the some of the sources we use to compile our business data.

- **Yellow Page Directories** - National Change of Address
- **Business White Page Directories** - Utility Connects and Disconnects
- **Government New Business Filings** - Secretary of State Filings
- **Corporate Directories** - Web Directories
- **Corporate Websites** - Professional Licenses
- **SEC Annual Reports and Events** - Telephone Surveys
- **News and Press Releases** - Self Reported Information
- **Association Directories** - Attendee Lists at Tradeshows
- **Many Other Public Sources**

Our customers expect a high degree of accuracy when using our information. Our monthly updates include telephone verification, web mining and NCOA, (National Change of Address).

220 Million U.S. Residents

DatabaseUSA® 220 million residential listings are compiled from data sources including:

- National directory assistance data
- Real estate deed and tax information

Business Databases - to help you achieve your agencies mission!

We have the finest Business Databases in the country

With a universe of 14 million businesses and 24 million executives, you now have the most comprehensive business information available. DatabaseUSA® is well recognized for its wide range of job titles --over 200 are available. The fact is that well-sourced, intelligently selected business lists and demographically rich databases are the most powerful tools for selling products and services in today's complex business environment. Reaching the right person with the right message is everything. DatabaseUSA® can do just that for you.

Our database is multi-sourced using yellow pages and business white pages, along with annual reports, government data, business directories, corporate and executive registers and public records. In order to ensure accuracy, the file is then put through a telephone verification process to update and obtain additional information such as employee size, key contact name and primary SIC code. Call us at 402.939.3903 and we will help you customize a list each time you have a project that requires comprehensive and accurate information!

Selections include:

- Employee Size
- Sales Volume
- Email Address
- Telephone Numbers
- Fax Numbers
- SIC Code
- Franchise
- Gender
- Headquarters/Branch
- Import/Export
- Job Titles
- Minority Classification
- Year Established
- Plus many more!

Select Your Data...you can get your information TODAY. Call now!

DatabaseUSA® can help you find just the right information.

Our experts will guide you every step of the way. See below for some of the selects available.

Business Selects

Territory or Market Area

You can select your territory by state, county, metropolitan area (MSA), ZIP Code™, radius around an address and, of course, the entire United States.

Type of Business

You can select any type of business or combination of several titles for your list.

SIC Code or NAICS Code

SIC Codes are assigned by the US Government. Select by specific codes or a combination of several SIC Codes.

By Sales Volume

Pinpoint your potential sales leads by selecting estimated sales volume, allowing you to save marketing dollars by not wasting your money.

By Employee Size

Employee size also determines the buying power of a business. Select your sales leads using employee size ranges, such as over 100 employees or less than 25 employees.

Complex Selections

For example, you can select all manufacturers in California with an employee size range of 25 - 250 employees or all retailers in Dade County with sales exceeding \$2 million per year.

Other Selects Available:

- Multiple Executives
- Number of PCs
- Square Footage
- Advertising Expense per Year
- Technology Expense per Year
- Office Equipment Expense per Year
- Rent Expense per Year
- Telecom Expense per Year
- Accounting Expense per Year
- Business Insurance Expense per Year
- Legal Expense per Year
- Utilities Expense per Year

Consumer Selects

Territory or Market Area

You can select any territory you need; for example, select by state, county, metropolitan area (MSA), ZIP Code™, radius around an address and, of course, the entire United States.

Age

You can select your sales leads by age groupings; such as consumers between 25 – 50 years old.

Income Level

You can select by appropriate income levels; such as consumers with annual income over \$100,000 per year.

Home Value/Home Ownership

You can select your sales leads by home value range, such as consumers with home values between \$250,000 and \$500,000. You can also select by length of residence.

Ethnicity

Multiple selections available.

Hobbies

Hundreds of selections available... Golfers, Pet Owners, Hunters, Boat Owners, RV Owners and many more!

Health Conditions

Allergy related, Arthritis/Mobility, Cholesterol Focus, Diabetic, Disabled, Senior Needs and more.

Complex Selections

Selections can be made by multiple lifestyle and demographics selections.

Other Selects Available:

- Actual Home Values
- Updated Household Income
- Date of Birth
- Discretionary Spending
- Unsecured Credit Capacity
- Estimated Net Worth
- Donor Capacity

Find New Businesses - Over 25,000 Added Per Week

Available weekly or monthly for all ZIP Codes and any city.

Our Data Can Help Government Agencies Verify That New Businesses Are:

- Licensed properly
- Follow codes
- Pay taxes
- Investigate legitimacy

Most Accurate New Business Data Available!

We have the freshest and most accurate new business information available on the market today! We receive new listings daily; telephone verify the data and then load into our database.

Select by:

- Type of Business: SIC Code or Yellow Page heading
- Employee size
- President or owner (where available)
- Full address
- Geographic Area: state, county, city/MSA, ZIP Code or area code
- Home or commercial based

...or any combination of selections to target exactly the right prospects

Our Information Can Help Communities Map Their Economic Development

Discovering new economic opportunities is vital to the fiscal health of communities. And since all of our data is geo-coded for immediate GIS mapping, government organizations can use it to identify key points of interest for economic development.

LP Police®...America's #1 Link Analysis Tool

Find relatives, neighbors, associates and common residency instantly

– *Link & Connect Current & Historical Data on Your Subject in Real Time*

– *Comprehensive Unified Public & Private Databases including Live Feeds to Credit Bureau Data*

– *Helping Law Enforcement & Government Agencies Solve More Cases*

Premier Investigative Database for Law Enforcement & Government Agencies

LP Police® provides Law Enforcement and Government agencies instant real time data, unlimited searches, VIP customer support/training and constant innovation.

Our comprehensive investigative database is an indispensable tool that allows you to “Connect the Dots” between relationships while accessing current and historical data.

40+ Searches Available

- People
- Relatives
- Reports
- Phone
- Neighbors
- Business
- Property
- Common Residency
- Roommates
- Civil
- Criminal
- and more!

We Help Make Your Job Safer – “Who’s Behind the Door?”

- Instantly find current national, local and regional criminal records that may not be available in your RMS.
- Find out who your suspect’s associates, relatives and neighbors are.

Uncover Hidden Relationships and Locate People of Interest

Once you identify your subject, we show you their relatives, neighbors, associates and common residents. Because relationships are often vital to solving a case, you may need to dig deeper and find 3rd and 4th degree connections to your suspect. LP Police provides all the pieces you need to find who you are looking for.

Industry Leading Phone Data

- Credit header phone data – Covers 99% of Phones in the U.S.
- Consumer reported information – 85,000 data contributors
- Phone company data – 1 million updates daily
- Phone carrier data – Real-time updates

Contact us today and learn why LP Police takes over where your RMS leaves off.

Email Platform - Ideal for Dynamic Constituent Messaging

Use our JangoMail® feature-rich email platform!

We lead the permission-based email marketing industry, offering services for transactional and permissible purpose emails. Over 200,000 organizations on six continents use JangoMail®, and its transactional email service, to stay in touch with their subscribers.

Ideal For:

• Higher Education

- Academic departments can set up their own subaccounts to communicate with staff and students.
- Athletic Department can promote events
- Alumni offices can stay networked
- Opt-outs are specific to subscriber lists

• Non-Profit Issue Advocacy

- Newsletters
- Invitations to donor events

• Membership Associations

- Use sub-accounts for segments and groups

• Government Agencies

- Federal, State and Local agencies use this platform as a cost efficient solution for internal and external email communications

Feature and Benefits

- Highly Customizable / Dynamic Delivery
- Pay only for Volume, not users
- Web Hooks for transactional emails
- Advance Scheduling
- Recurring emails and auto responds
- Master / Sub Account management for flexible control
- Tracking and Reporting

CASE STUDY: Colleges and Universities Love Our Agency Account Features

We found that most of the colleges and universities using JangoMail® love our agency account setup. We tailor each account to the specific needs of the organization. A typical agency account has one master account with a number of subaccounts. Billing can be done on one invoice, or each subaccount can be billed separately. The subaccount feature allows each department within the organization to operate autonomously, while the organization retains the benefits of only using one email service provider.

JangoMail® is Priced for Higher Ed

JangoMail® also offers very competitive pricing options that appeal to higher ed. Pricing is straightforward at JangoMail® and there aren't any hidden charges. JangoMail® does not charge based on number of platform users, only the number of emails sent. This provides significant cost savings for colleges and universities that depend on email communication wide and deep within the institution.

Design, Print and Mail Postcards Same Day

By combining an advanced digital printing process with our sophisticated, yet easy-to-use online tools, expresscopy.com® has made it realistic for agencies and organizations to produce professional looking postcards, flyers and brochures, and to launch effective Public Service Announcements or issue campaigns, regardless of their budget or their design resources.

Postcards are a staple of effective issue campaigns!

Postcards are an inexpensive and effective way to communicate your campaign message. They make a great visual impact in the mailbox and are effective at communicating key messages.

Your message coupled with one of our great looking and superbly printed campaign postcard designs is sure to make the right impact on your voters.

Aside from the many designs you have to choose from, expresscopy's® postcards are available with these options:

- One-sided or two-sided printing
- 3 standard sizes - 4 x 6, 5 x 7 or 5.5 x 8.5
- 4 EDDM sizes - 4.25 x 10.625, 4.25 x 15, 6 x 11 or 6.25 x 9
- 2 different paper stocks (matte or glossy)
- First Class, Bulk or EDDM mailing services

After you select your design, give us a call and we'll help you determine which of the options above will work best for your campaign.

In addition to printing your political postcards, we can also mail them for you. expresscopy's® offers cost-effective same day mailing services, including Every Door Direct Mail (EDDM), that will free you up your staff from licking stamps - allowing them to pursue more productive activities.

We can also help you select a targeted list or choose EDDM routes to mail your postcards to if you don't already have a mailing list for your local area.

Browse through our campaign postcards designs online and find one that you like. Then call us and we'll help you through the rest of the process. It's fast and easy!

How to Get Started?

Let DatabaseUSAgov® help you with all of your data needs.

DatabaseUSAgov.com® – A complete suite of services to access virtually every U.S. business and residence.

Business and Consumer Databases (AtoZdatabases Research Web Portal)

Call 402.939.3903 to receive a username and password

- Go to www.DatabaseUSAgov.com and enter username and password
- Select from the database you wish to search:
 - U.S. Businesses
 - U.S. Households
 - New Homeowners

Within the selected database a user can do a quick search or click on custom search to access multiple search criteria; SIC code, company size, executive title, address, ZIP Code, city, state, and many more to help you pinpoint exactly what you are looking for.

Custom Databases & Data Processing Services

To order a custom list or discuss your specific data mining or enhancement project call 402.939.3903 and tell us your exact needs.

We can customize our data to meet exactly what you're looking for, such as:

- All manufacturers with 100+ employees in a 5-mile radius of Cleveland, OH
- All households with residents ages 50 – 65 who have lived in their homes more than 15 years
